53	12620	2007	Two Buses	Obligated	no	\$530,000	Transit District

The Federal Metropolitan Transportation Planning Final Rule (Fed. Reg. June 14, 2006) 23 CFR 450.332 requires an annual listing of obligated projects, to include all federally funded projects authorized or revised to increase obligations in the preceding program year. The Federal Funds column identifies the federal dollar amounts listed in the SKATS TIP. For obligated projects, the full amount was obligated. For carryover projects, the full amount is available and remaining for subsequent years. The list also includes other regionally significant, locally funded projects that were in the SKATS TIP.
