

Accessibility

The Mid-Willamette Valley Council of Governments (MWVCOG) is committed to making the work we create and publish accessible to all individuals, regardless to ability or technology. This includes the MWVCOG website and contents. The goal is to have this website comply with the standards and practices defined in the World Wide Web Consortium (W3C) Web Content Accessibility Guidelines 2.0 and Section 508 of the U.S. Rehabilitation Act. If you have any difficulty using assistive technology on this site or with any of the documents contained on the website, please [contact us](#).

The majority of files linked on this site are in Adobe Acrobat PDF format. To view these files you will need a free viewer which is available at: [Adobe PDF Reader](#). In addition, most newer operating systems provide the ability to display, and in some cases read aloud, PDF files without additional software.

We continue to test and improve this website to ensure it is accessible to all.

Known Accessibility Issues

- Not all older documents have been checked for compliance with accessibility standards, in particular reading order, alternative text detail for images, and contrast.
